**Separated 34 Years**

**Local Woman Re-united With Cousin in Canada**

A surprise reunion with a cousin whom she hadn't seen in 34 years highlighted the recent trip through Canada taken by Mrs. Zoe Dethiers of 903 Acacia Avenue.

While visiting Verdun in the eastern portion of Canada, Mrs. Dethiers attended a festival at which General Joseph Veragan, a cousin from Belgium, was the principal speaker.

Following the festivities, she was reunited with the General, from whom she had been separated during World War I.

General Veragan, she reports, is doing Catholic missionary work, principally in the Belgian Congo.

While visiting with her sister-in-law, Mrs. Marie Patte, of Montreal, Mrs. Dethiers participated in a homecoming celebration for her nephew, Captain Rene Patte, who returned after serving 12 months in the Korean War.

An interesting side trip reported by Mrs. Dethiers was a visit to the Shrine of Ste. Anne de Beaufort in Quebec. To this shrine thousands of persons afflicted with various maladies trek each year in hope that a miracle will result in their cure.

During the trip, Mrs. Dethiers had an opportunity to visit many relative and friends who reside in Eastern Canada, she disclosed.

Individual grouping of room mothers of their child's class followed with a Room Mother chairman elected to that office. These chairmen aid teachers and children with the many room parties and PTA affairs. Teachers and board members assisted at each of these conferences, Mrs. Jones reported.

**Electricity is today's biggest bargain—the figures prove it!**

Considering 1939 the base year, the dollar bought only forty cents worth of labor last year, forty-three cents worth of construction, or thirty cents worth of raw materials—but it bought \$1.12 cents worth of industrial electric power. In your home, that dollar bought only forty-four cents worth of food, forty-nine cents worth of clothing or seventy-four cents worth of rent—but it bought \$1.05 worth of electricity.

The figures are national averages released by the National Industrial Conference Board. They show that the one great exception to the upswing in prices is your electric service. In Edison territory, electric service is an even greater bargain than the national averages indicate.
